

# BANK LAYOUT CHART FOR FORMS PRINTED WITH MAGNETIC INK

NOTE: All digits must be inserted in exact field positions as specified by your customer's bank manager (0 is a valid digit). It is not acceptable to use samples of other MICR printed forms, as these will not show spacing for typesetting and checking.

**BANKS** NOTE: Please be sure to specify type of account, whether General, Accounts Payable, U.S., Trust Account, Etc.

MUST BE LEFT BLANK

CONSECUTIVE MICR NUMBERING

When required, indicate position with X's. Units digit of the number must always be placed in space #46. Minimum number of digits in consecutive number field is 6 and with some banks 7. The consecutive number must be bracketed with account number symbols. There will be a zero fill between the left account number symbol and the actual number.

## CREDIT UNIONS

NOTE: Use below numbers only if your client clears through the Provincial Credit Union Federation. Some clear through chartered banks and in these cases spec's should be shown under appropriate bank in 'OTHER' column. Please specify type of account.
